

Dear Company BROT&SPIELE,

There are houses that you donated the well.

Dear Company BROT&SPIELE,

This is your name on the sign before paint and after painting.

Dear Company BROT&SPIELE,

The water in this well is going to clear very fast, but it smell the soil a little bit because it first water.

Dear Company BROT&SPIELE,

Before they got this well, they asked to use the water from the neighbor. It is very difficult for their family because when they need water to use, they need to ask, ask, ask every time and when the well broke down the owner of the well always complains and blames someone who used their well, but all of those families have no choice because all of them have no money to make a well. I say like this you may wonder why they are so poor like this, sometimes they don't have money to buy food. So the well is very very expensive for them.

Dear BROT&SPIELE,

The well that they use was very dirty because it has no cover, so everything falls down into the well especially when it floods a lot of dirty things inside the well.

Grandmother told me about her difficulty to use that well " because she's very old and she can't take the water from the well by herself, so every day grandfather tries to take the water for his wife even he can't take a lot of water 1 time, but he tried very hard to take water to keep in the kitchen for his wife and when grandfather came back from feeding cow they have a bath together, they said because the well is used a lot by the family, so if they go a little bit late they will stand for a long time until their turn and some time because waiting for so long, they decided to sleep without having a bath.

Dear BROT&SPIELE,

This is the family that got the well from your donation. The grandmother this year almost 80, she has no job and have no other income beside waiting money that her son send from Thailand and one time he sent to her only \$ 50 and this money she bought rice and food. And the old man is her husband he's 79, every day he feed 3 cows and the owner of the cow give some small money and some food to him, Both of them live very difficult in a small house that you see in the photos.

The woman that you see is their daughter, the little girl in the photo is her daughter. Her job is selling some snack for children just to get some small profit for help her daughter to go to school.
