

Dear MITARBEITER,

This is the house that they get the well from our project by your donation. This family is the poorest around that area, most of the time they eat rice with salt. I really depressed to see this family; they used really dirty water before they get this well.

Dear MITARBEITER,

\This is the sing for the well and this well is located in the middle of the rice field, I hope you like the sing.

Dear MITARBEITER,

This is first water from our well, it looks so dirty and there is a lot of mud, even now still has mud, but it isn't much. When pumped many times the water will clear.

Dear MITARBEITER,

There are two families who use this well. The rice field around this well makes it look so great.

Dear MITARBEITER,

The father name is KAI DOUERN, he is 65 yearsold. he is a famer and his son name is DOERM DOUERT, he is 28 years old and he has no job he just help his father to plant rice. And the woman name is KOM SROS, she is 31 years old and she is a famer to her husband name is DUOM MAO he is 32 year old o, her husband not seen in this photo because go to find food so far from home. He doesn't know that I go to his house because I can't make appoitment with him, he doesn't have phone.they have two daughter, but they died with no reason after born a few moths. and other people who use this well is not at home too. , and go to fand work a few day a go, so you can't see him in this photo. .

They are so happy when they got this well. because they use the water in the pond almost a whole life. and now they could change because of you. they never ever think about to have a well at their home.

Dear MITARBEITER,
