

Dear Stephanie,

This is the house that you supported the well.

Dear Stephanie,

I think not so much people in this world that have the same age as you and have name on the sign like this. I'm very proud and excited for you. And I hope you're happy to see your name on the sign.

You will see how different about the water when we just dig a well and until it clear. It is quite a big different.

Dear Stephanie,

We're all very thankful to you for your well and your water filter. We really need it for our lives and we're really hopeless to get from someone, but we got it from you. It's like a day dream for my family.

Dear sister Stephanie,

We're very love the water filter. We want this kind of filter long time ago since we saw it on TV, but mother said we have to safe money for long time and then we could buy this water filter. And we were waiting for so long. And now we got it from you. Thank you for your gift sister. We will have a better life because we have safe water to drink.
